PowerSchool Parent Portal gives parents and students access to real-time information including attendance, grades, and detailed assignments. Everyone stays connected: Students stay on top of assignments, parents are able to participate more fully in their student’s progress, and teachers can use their grade book to make decisions on what information they want to share with students and parents.

**Step 1 of 2:** Use the Access ID and Access Password sent to you in a district communication, or contact the Powerschool Coordinator at the school, or the ITM Helpdesk at 513-363-0390, to obtain the Access ID and Access Password for your student. *Please note that your email address must be listed in Powerschool for the ITM Helpdesk staff to assist you.*

Students have their own user name and password for Powerschool. The Access ID and Access Password are specifically for parents to link the student to the parent account. The Access ID and Access Password WILL NOT log you in to Powerschool.

**Step 2 of 2:** After receiving the Access ID and Access Password you will need to create your individual Powerschool Parent Account.

2. Choose the “Create Account” tab.
3. Click the “Create Account” button.
4. The top portion of the page is where you enter your parent information. All information must be completed.
5. The bottom portion of the page is where you enter your student(s) information. The Access ID is typically the first five letters of the student’s first name, period, last name and the day of their birth.
